

MOKA is a change agent for hundreds of individuals with all types of disabilities throughout West Michigan. We create opportunities for independence and acceptance in our communities by supporting children and adults with developmental and intellectual disabilities in making choices, building relationships, sharing places, developing skills, enhancing reputations and contributing back. Individuals live successfully at home, transition to community living situations, and develop employment skills for jobs. MOKA supports growth through different levels of services designed to be a continuum of support.

Life Skills Community Living Supports

The program focuses on relationships, interaction, and life skills that enable participants to become more involved and engaged in their community. Experiences such as volunteering and participation in regular community activities enable meaningful integration.

Crossroads

Everyone has something to offer, and something to gain, from being a part of his or her community. That does not change when someone requires additional assistance with behavioral support, personal care, mobility, or complex medical needs. Crossroads provides that support to help individuals with accessing the community and all that it has to offer.

Employment Services/Linked

Linked

The program provides Community Living Supports (CLS) based on individual goals. A Certified Peer Mentor is the direct care staff that offers a unique approach to the delivery of services from a peer perspective. They provide information about local support systems and the best ways to navigate them. Services are provided in the community in which the individuals reside.

Employment Services

MOKA's Supported Employment Services are centered on a relationship-based employment model. We will work with each individual to identify his or her strengths, skill sets, and job readiness in pursuit of employment. We also work with employers to find or carve out a job match that aligns with the strengths of each person. We will provide job development, job coaching and ongoing supports as necessary for the individual to maintain employment.
