

See the Individual in Everyone

MOKA is a change agent for hundreds of individuals with all types of disabilities throughout West Michigan. We create opportunities for independence and acceptance in our communities by supporting children and adults with developmental and intellectual disabilities in making choices, building relationships, sharing places, developing skills, enhancing reputations and contributing back. Individuals live successfully at home, transition to community living situations, and develop employment skills for jobs. MOKA supports growth through different levels of services designed to be a continuum of support.

Skill Building/E2

The program focuses on helping individuals discover their own abilities, self-worth, work goals and life plans. Participants explore job search tools, the interview process, career exploration, and job readiness.

Continuum

This program is for individuals who want to be involved in the community but have behavioral support needs. The individuals in this group can benefit from the use of Applied Behavioral Analysis (ABA) principles in supporting learning and independence. We use the community as our classroom.

**Group Community Living Supports
ELP/Endeavor**

The program focuses on relationships, interaction, and life skills that enable participants to become more involved and engaged in their community. Experiences such as volunteering and participation in regular community activities enables meaningful integration.

Summa

This program is for individuals who want to be involved in the community but have higher medical and/or personal care needs. Additionally, we can support individual's physical therapy and occupational therapy needs by working with their current PT's and OT's. Summa is designed to equip people with the skills that allow them to be integrated into their communities by using the community as our classroom.

Employment Services

Employment Services

MOKA's Supported Employment Services are centered on a relationship-based employment model. We will work with each individual to identify their strengths, skill sets, and job readiness in pursuit of employment. We also work with employers to find or carve out a job match that aligns with the strengths of each person. We will provide job development, job coaching and ongoing supports as necessary for the individual to maintain employment.
