

MOKA is a change agent for hundreds of people with all types of disabilities throughout West Michigan. We create opportunities for independence and acceptance in our communities by supporting people in making choices, building relationships, sharing places, developing skills, enhancing reputations and contributing back. People live successfully at home, transition to community living situations, and develop employment skills for jobs. MOKA supports growth through different levels of services designed to be a continuum of support.

Skill Building

E2

This program focuses on helping people discover their own abilities, self-worth, work goals and life plans. Participants explore job search tools, the interview process, career exploration, and job readiness.

Group Community Living Supports Endeavor

This program focuses on relationships, interaction, and life skills that enable participants to become more involved and engaged in their community. Experiences such as volunteering and participation in regular community activities enable meaningful integration.

Specialized Services

This program is for people who want to be involved in the community but have behavioral support needs, have higher medical and/or personal care needs. The people in this group could potentially benefit from the use of Applied Behavioral Analysis (ABA) principles in supporting learning and independences. Additionally, we can support participant's physical therapy and occupational therapy needs by working with their current PT's and OTs. Specialized services is designed to equip people with the skills that allow them to be integrated into their communities by using the community as our classroom.

Employment Services

This program is centered on a relationship-based employment model. We will work with each person to identify their strengths, skill sets, and job readiness in pursuit of employment. We also work with employers to find or carve out a job match that aligns with the strengths of each person. We will provide job development, job coaching and ongoing supports as necessary for the person to maintain employment.
